

## What advice would you give to someone considering an opportunity with Bank of America?

“Get familiar with the Bank of America spirit.”

### What is your current assignment and primary responsibilities?

My current assignment is in ATM Technology & Operations. I work as a project manager helping to reduce risk and operating costs associated with ATMs, and to establish new processes and systems to streamline operational processes. The job requires working across organizations including ATM Operations, Technology, Enterprise Technology & Delivery, Corporate Security and with various vendors.

### What is the most challenging aspect of your job?

The most challenging part of my job is navigating through the organization and understanding how all the players interact. Building relationships and understanding how each person contributes to the overall goal of a project or initiative is critical.

### What attracted you to Bank of America?

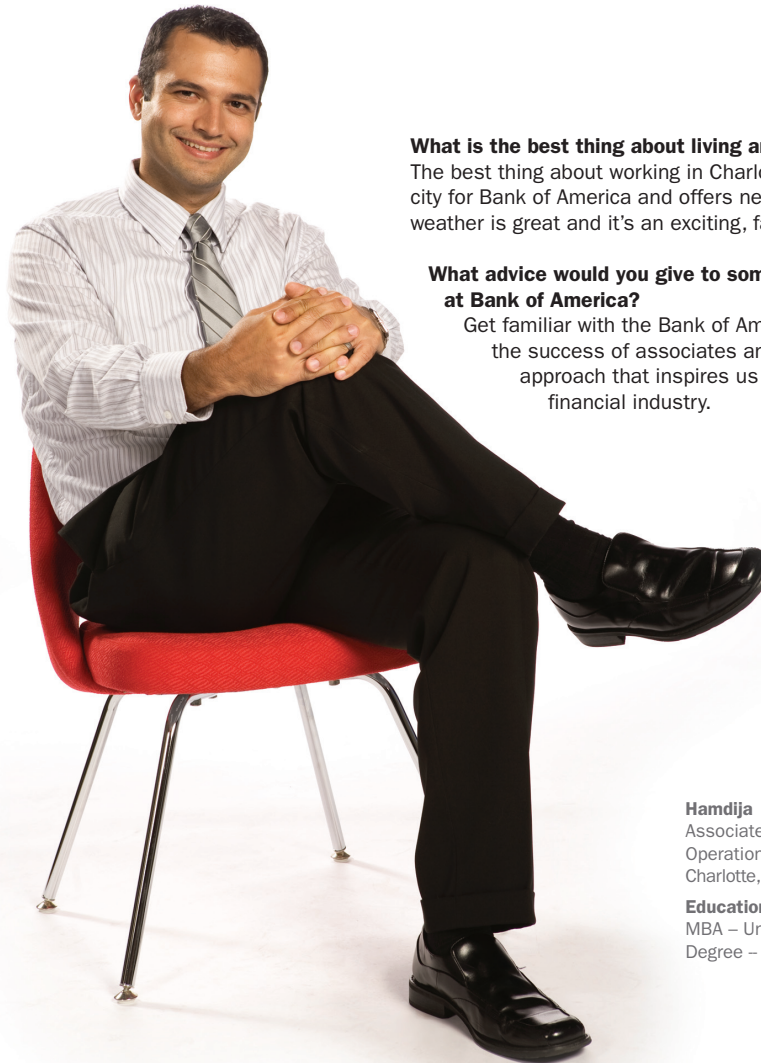

It is a global company that provides a wide range of opportunities to grow and build a successful career.

### What is the best thing about living and working in your location?

The best thing about working in Charlotte is that it is the headquarters' city for Bank of America and offers networking opportunities. Also, the weather is great and it's an exciting, fast-growing city.

### What advice would you give to someone considering an opportunity at Bank of America?

Get familiar with the Bank of America spirit and what it means to the success of associates and to the company. It is a truly unique approach that inspires us to become world leaders in the financial industry.
